The GBPA was founded in 1959 as the first public/private partnership at Gettysburg. Over the years, the GBPA played a continuous role in purchasing endangered battlefield land. Such properties, as the Daniel Lady Farm have been saved from urban development and commercialism.

The GBPA is proud to work with Representative Harry Readshaw and A.B.A.T.E. of PA to raise funds to repair and restore all of the monuments in Gettysburg that were erected to honor the soldiers of Pennsylvania. A perpetual fund has been started to keep them repaired for all future generations.

The Annual Motorcycle Ride also provides funds to restore the Daniel Lady Farm on Hanover Road. This farm is the northern most Confederate site that has been saved and is in the restoration process. It was a field hospital and protected the left flank of the Confederate line. Go to [www.gbpa.org](http://www.gbpa.org) to learn the amazing story of this historic site.

Your help, generosity, and contributions are deeply appreciated.
